

**Modular DVD Rack 12300**

**1** Please remove the protection foil from all acrylic parts (foil is on both sides).

Firstly stick the connecting parts 12300t on the exterior shelf 12300d and establish a tight connection using the M3 screws and nuts ( please fasten the screws only lightly )

Slot the shelves 12300c on the side panels 12300b. Make sure that the round overlaps with the openings are up.

Connect the two readily assembled shelves 12300d, to the side panels 12300b using the small M3 screws and nuts.

Now connect the two exterior side panels 12300e to the shelves and also to the connecting parts.

Finally connect the back panel to the sides and shelves. Clamp it firmly with the acrylic wedges. To interconnect several DVD Racks or DVD and CD racks sideways please use the longer M3 screws and nuts.

**Cleaning Instructions :**

Please do not use any cleaning agents other than water or special acrylic care products. Many other cleaning agents contain solvents, which can damage the acrylic glass.

If you have any further questions, please contact us by e-mail or telephone.
